TRANSFER OF CARE

Transfer of Care:

Animals in transit must be under the care of a designated person responsible for their well-being and welfare. No animal(s) can be left at an auction mart, packing plant or other assembly centre without written documentation of transfer of care. It is critical that animals are not left without confirming onsite that someone will be providing and responsible for care.

If livestock manifests are used in your province, these documents often have existing information that can be used to prove transfer of care. If livestock manifests are not used in your province, a simple form with the following information can be used.

To ensure continuity of care, no animal is to be left at any slaughter facility, or assembly centre without written notice that care has been transferred between the transporter and the receiver. This is done to ensure that the individual responsible for caring for the animals can be clearly identified at all times.
