ANIMAL HEALTH PRODUCT CHECKLIST

YEAR : 2024

ANIMAL HEALTH PRODUCT CHECKLIST	
☒	Expired drugs culled
☒	Refrigerator working correctly (use of thermometers preferred, min/max indicator ideal)
☒	Storage is appropriate for products present (dark, cool, etc.)
☒	Products clearly stored as per species (i.e. no horse products with cattle products)
☒	No banned products present
☒	Products organized to reduce treatment errors
☒	No needles stored in bottle tops
☒	Facility clean to avoid contamination
☒	Empty drug containers stored for appropriate disposal
☒	Package inserts or dosage protocols available; access to a drug compendium
☒	Method to determine animal weights (scale, body tape or reasonable estimate)
☒	Spent needles collected and disposed in an appropriate manner

NOTES

Annual inventory completed: January 2026
Refrigerator temperature maintained between 2–8°C.
Expired medications removed and disposed of through veterinary clinic.
Sharps container replaced when full.
Drug storage cabinet cleaned and organized during inventory.
